INDEX

A

ATP-ase activity of rat intestinal mucosa, action of bile salts on, 389.
Abstracts of papers presented at the MBL, 388.
Acclimation, role of in survival of postlarval Penaeus under controlled temperature and humidity, 199.
Acoel turbellarians, new species of, 151.
Actinomycin D, effects of on RNA synthesis in Tracheloraphis, 394.
Actinomycin and puromycin, effects of on sea urchin embryos, 399.
Action of ions as inductors, 471.
Adipohemocytes of Rhodnius, 282.
Aedes, inhibition of blood digestion and oocyte growth in, by FU, 439.
Aedes, spermathecal filling in, 134, 532.
Aiello E., and G. Guideri. Distribution and function of the branchial nerve in Mytilus, 431.
Akov, S. Inhibition of blood digestion and oocyte growth in Aedes by 5-fluorouracil, 439.
Albino hydras, nutrition of, 316.
Aldrich, D. V. See Z. P. Zein-Eldin, 199.
Alga (Gracilaria), ion transport in, 495.
Algae, siphonalean, classification of, 366.
Algae and hydra, symbiosis of (II), 316.
Algal cellulose, use of by Strombus as food, 273.
Alkali ion transport in Gracilaria, 495.
Ambystoma larvae, effects of phenylthiourea on pigmentation of, 562.
Amino acids of slime mold, 295.
Amount of food, effect of on growth of hydra, 316.
Amphibian, behavioral and integumentary changes associated with induced metamorphosis in, 510.
Amphibian development, role of ions as inductors in, 471.
Amphibian pigmentation, effect of phenylthiourea on, 562.
Anal processes of "Characodon," 303.
Analysis of movement of oil droplets in Oryzias egg, 189.
Anatomy of barnacle nervous system, 244.
Anatomy of "Characodon" ovary and anal processes, 303.
Anatomy of mosquito reproductive organs, 134.
Anatomy of new acoel turbellarians, 151.
Anderson, John M. Studies on visceral regeneration in sea-stars. III., 454.
Androgens, effects of on gonad differentiation in Tilapia, 482.
Annelids, tube-building and feeding in, 217.
Annual pattern of colonization by Ascidia, 128.
Anoxia, effect of on firefly larval luminescence, 234.
Apholate effects on development of Arbacia, 427.
Apley, M. L. See W. R. Hunter, 408.
Aposymbiotic hydra, effect of food on growth of, 316.
Arnold, J. M. The inductive role of the yolk epithelium in the development of the squid, Loligo, 72.
Artificial insemination of mosquitoes, 432.
Ascher, M. See S. Inoué, 409.
Ascidia, biology of (III), 128.
Asterias, visceral regeneration in, 454.
Auclair, W., and D. M. Meismer. Cilia development and associated protein synthesis in the sea urchin embryo, 397.
Augenfeld, J. M. Effects of salinity on the oxygen consumption of isolated gills of and on the oxygen consumption and electric potential of intact Fundulus, 397.
Australian siphonalean algae, classification of, 366.
Azide, effect of on active transport by turtle intestine, 490.

B

Balanus, mechanism of shadow reflex in, 244.
Bang, F. B. See J. Levin, 412.
Barnacles, mechanism of shadow reflex in, 244.
Barnes, R. D. Tube-building and feeding in chaetopterid polychaetes, 217.
Barth, L. G. The nature of the action of ions as inductors, 471.

TURNER, V. See R. A. BOOLOOTIAN, 399.
Turtle intestine, effect of inhibitors on active transport by, 490.
TUTTLE, J. See S. LERMAN, 412; S. ZIGMAN, 430.

U

Uca, effects of temperature acclimation on carbohydrate metabolism of, 87.
Uca, interaction of tidal and diurnal rhythms in, 582.
Udonella, nutrition of, 257.
Ultrasound, effects of on centrifuged Arbacia eggs, 428.
Unfertilized Cochliomyia eggs, development of, 329.

V

VALCOVIC, L. R., AND D. S. GROSCH. Apholate effects on early development of Arbacia, 427.
VAN PILSUM, J. F. See G. C. STEPHENS, 573.
VAN PRAAG, D. See H. W. EISENBERG, 403.
VAN PRAAG, J. M., E. J. SIMON AND H. S. ROSENKRANZ. Properties of the DNA isolated from sperm of Arbacia treated with hydroxyurea, 428.
Variation in plates of sand dollar test, 167.
VERNBERG, F. J. See J. M. DEAN, 87.
VILLEE, C. A. See R. BILLIAR, 399.
VINCENT, W. S. Cyclical synthesis of ribosomes in synchronous cell cultures, 388.
VINCENT, W. S. See A. LØVLIE, 413.
Visceral regeneration in sea-stars, 454.
Vital staining of Rhodnius hemocytes, 282.
Viviparous fish, ovary and anal processes of, 303.
Voltage-clamp measurements of Cl-conductance of skate electroplaques, 407.

W

Water-drive in Diemyctilus, 510.
Water physiology of salt-marsh pulmonate snail, 409.
Weather conditions, as affecting spawning of oysters, 546.
WEBB, H. M., AND F. A. BROWN, JR. Interactions of diurnal and tidal rhythms in the fiddler crab, Uca, 582.
WENGER, K. See M. FINGERMAN, 404, 405.
WHEELER, R. E. See J. C. JONES, 134, 532.
WIERCINSKI, F. J. Transcellular effects induced in centrifuged Arbacia egg cells by locally applied ultrasound, 428.
Winter flounder, microsporidian infection of, 371.
Worms, annelid, tube-building and feeding in, 217.
WU, S. L. See R. G. FAUST, 389.
WYTTENBACH, C. R., S. CROWELL AND R. L. SUDDITH. The cyclic elongation of stolons and uprights in the hydroid, Campanularia, 429.
WYTTENBACH, C. R. See S. CROWELL, 403.

X

Xenopus larvae, effects of phenylthiourea on pigmentation of, 562.

Y

YAMAMOTO, Y. See M. FINGERMAN, 389, 404, 405.
Yolk epithelium, role of in squid development, 72.
Yuyama, S. Cleavage delay and early quadripartition induced by beta-mercaptoethanol, 429.

Z

ZEIN-ELDIN, Z. P., AND D. V. ALDRICH. Growth and survival of postlarval Penaeus under controlled conditions of temperature and salinity, 199.
ZIGMAN, S., S. LERMAN AND J. TUTTLE. Antagonists of DNA synthesis in epithelial cells of the dogfish, Mustelus, 430.
ZIGMAN, S. See S. LERMAN, 393, 412.
ZOLLINGER, W. K., JR. See A. I. LANSING, 411.
